Strategy To Innovate, Create Value, And Build Competitive Advantage

What do Brazil's top beauty brand, America's second-fastest-growing restaurant chain, and the world's third bestselling car have in common--besides achieving enormous success with revenue in the tens of billions? They are doing it all while holding to their convictions of implementing sustainable principles that help consumers live better lives. But they aren't the only ones. Green Giants examines nine companies--including Chipotle, Toyota, Unilever, Tesla, General Electric, and more--who have established the blueprint for sustainable success that anyone can follow. Author Freya Williams, an early

We live in a fundamentally changed world. It's time for your approach to strategy to change, too. The evidence is all around us. Extreme weather, driven by climate change, is shattering records all over the planet. Our natural resources are in greater demand than ever before as a billion more people enter the global middle class, wanting more of everything. Radical transparency is opening up company operations and supply chains to public scrutiny. This is not some futuristic

scenario or model to debate, but today's reality. We've passed an economic tipping point. A weakening of the foundations of our planetary infrastructure is costing businesses dearly and putting our society at risk. The mega challenges of climate change, scarcity, and radical transparency threaten our ability to run an expanding global economy and are profoundly changing "business as usual." But they also offer unprecedented opportunities: multi-trillion-dollar markets are in play, and the winners of this new game will profit mightily. According to Andrew Winston, bestselling author (Green to Gold)
